

# Marc L. Casey

Underwater Camera Technician/Operator - Underwater Photographer

## EDUCATION

Savannah College of Art and Design

**Bachelor of Fine Arts - Cum laude** Film and Television 2009

Virginia College

**Associate of Applied Arts** Computer Imaging/Visualization 2001

## EXPERIENCE

### ***Underwater Camera Technician, Local 600 Cinematographers Guild - Atlanta, GA (2012 - Present)***

Full working knowledge of specialized camera equipment, lenses, and underwater lighting and diving equipment. Perform camera test to determine focus of lenses underwater and set up focus system. Test lens for size and fit in housing, operation of motors and gears. Check seals for cleanliness and functionality. Ability to build various cameras in different underwater housing to include HD and DSLR camera systems. Responsible for leak test of the camera housing and other underwater camera systems during prep and each time housing is opened and returned to the water. Install and rig camera on cranes, tripods, boats and other camera support systems. When needed, function as camera focus puller using remote focus control system.

### ***Second Assistant Camera (2<sup>nd</sup> AC), Local 600 Cinematographers Guild - Atlanta, GA (2011 - 2020)***

Marked actors for positions to stand and area cameras will be positioned. Slated camera and recorded amount of footage used when camera is rolling. Secured, organized, maintained and cleaned all camera inventory, equipment, and expendables on camera truck. Was responsible for building camera and moving camera equipment from one location to another and around production set. Communicated regularly with production company, rental houses, editing, laboratories, and unions. Record keeping of all camera-related paperwork, including camera reports, daily stock reports, film inventory reports, lab orders, and expendable orders. Assisted, first assistant (1<sup>st</sup> AC) and camera operator with composition, focus, and operation of camera before and during recording of live and captured images. Was responsible for hiring and managing extra crew members when production requires additional cameras and equipment to be used on set.

### ***Film Loader/Digital Utility, Local 600 Cinematographers Guild - Atlanta, GA (2009 - 2011)***

Secured, organized, maintained and cleaned all film inventory, equipment, and expendables on camera truck. Responsible for loading and unloading film stock from camera magazines to light sensitive containers. Charged batteries for film camera and accessories. Prepared film to be sent to the lab for processing. Maintained records of time, per diems, and expenses for the entire camera crew. Liaised regularly with production, rental houses, editing, laboratories, and unions. Record keeping of all camera-related paperwork, including camera reports, daily stock reports, film inventory reports, lab orders, and expendable orders. Assist 1st AC and 2nd AC with building cameras and carrying equipment around film set.

### ***Camera Department PA, The Last Song - Piano Pictures - Disney - Savannah, GA (2009)***

On set assistant to the Director of Photography (DP) and the camera department with the day-to-day set needs of the production. Inventoried and cleaned lens, camera, production truck and other gear. Printed, labeled, and organized DP photo continuity book. Assisted 1st and 2nd camera assistants with day to day activities in the camera department.

### ***Photojournalist, WSAV News 3 - Savannah, GA (2007 - 2009)***

Shot and edited videos for morning news show utilizing a Grass Valley News Edit SC Non-Linear Editing system and play back. Won Associated Press "Best Use of Sound Honorable Mention Award" for a NAT sound segment titled *Crash Training*. Used Panasonic camcorder with sound equipment to shoot news events with reporters for local news segments. Other software and equipment used: NewsQ Pro playback systems and ENPS news computer system.

***Creative Media Director, Rockrusher Productions - Huntsville, AL (2005 - 2006)***

Director, videographer, editor, animator, and DVD author for *Days of Jubilee* a 45-minute video produced to generate donations to pay off building fund for The Rock Family Worship Center. Director, camera operator, graphic artist, and tech support person for weekly live three-camera event recorded to be used for national and international television broadcast and pod cast. Director, camera operator, editor, animator, and DVD author for *Gospel According to Scrooge* a two hour stage performance captured on video with three cameras to include a jib, 40 member cast, and 6 scenes. Created 30-second video and animated commercials designed to inform the community about local events.

***Associate Artist, Media Fusion / Marshall Space Flight Center - Huntsville, AL (2003 - 2005)***

Interacted directly with clients in the pre-design stages to effectively provide quality products for each audio/video project. Responsible for designing and delivery of various graphics, motion graphics, 2-D/3-D animation, and DVD projects to NASA Customers. Specialize in creating title sequences, NASA hardware animations, and other projects incorporated into video and multimedia productions.

***Multimedia Specialist, D&C Multimedia - Franklin, TN (2002 - 2003)***

Managed, produced, shot, and edited live video productions. Designed over ten websites while supporting video projects, created interactive multimedia projects for the Internet, CD ROM, and video. Developed all in house and client related graphic design work and publications. Proactively produced solutions to solve technical problems with computers on a regular basis.

***CBS WHNT-TV 19, Graphics/Chyron Operator, Huntsville, AL (2002)***

Utilized the Chyron graphics generator and PhotoShop software. Prepared news rundowns, scripts, graphics, and text to air during live news coverage.

***ISTC-2 Technician III, Colsa ARC, Huntsville, AL (2001 - 2002)***

Installed and maintained computer systems, PESA video switchers, audio mixers, amplifiers, cameras, video projectors. Terminated various cables: CAT5, RCA audio/video, CATV, Canare, composite, microphone/audio, and fiber optic cables.

***Integration and Test Associate, Quantum Resources, Huntsville, AL (2000 - 2001)***

Performed numerous tests and checkouts, using computers, on the Northrop Grumman Brilliant Anti-Armor Submunition (BAT). Trained new employees on how to use test equipment, procedures, and software. Used FileMaker Pro, PowerPoint, Excel, and Word to track test and equipment failures and update or rewrite test procedures.

***Control Room Technician, Live On The Net, Huntsville, AL (2000)***

Set up and operated studio designed to produce video for the Internet. Captured, edited, and converted audio/video tapes using Real media software. Managed, directed, and controlled all live audio/video events while on duty.

***Missile/Space Facility Technician & Manager, United States Air Force (1992 - 2000)***

Operated, troubleshoot, serviced, and repaired environmental control systems, diesel electric units, power generation and distribution systems, and refrigerant systems. Supervised maintenance and inspection teams at 20 Missile Alert Facilities (MAF's) in the Minuteman III and Peacekeeper weapon systems. Other responsibilities included: fuel management activities, supply inventory, emergency response team, equipment servicing, lightning and water system checks.
